43 Queen Street South, Kitchener**

www.barterworks.org

BarterWorks is a network of local community groups, individuals, and businesses who exchange labour, goods, and services for Barter Dollars (B\$) alone or in combination with cash.

Community Market Days are open to the public, providing BarterWorks members with market space to promote their goods and services, meet other members face to face, and expand the membership of the organization.

When you support BarterWorks members, you also support small and home-based businesses, artists, crafters, and other service providers from our community at the same time that you strengthen our local economy.
